

GHM GROUP CORPORATE
GHM Messtechnik GmbH | Tenter Weg 2-8 | 42897 Remscheid | GERMANY

Declaration on Regulation (EC) No. 1907/2006 (REACH)

Dear customers

As a manufacturer of measuring and control technology products, we take the position of a downstream user - producer of articles - in accordance with the REACH Regulation.

GHM Messtechnik GmbH neither supplies substances nor preparations that fall under the information, authorisation or registration obligation according to (EC) Regulation 1907/2006, nor does an intended release of substances occur when our products are used as intended. Therefore, registration according to Art. 7 (1) in the sense of the above-mentioned regulation is not required.

As a downstream user we are nevertheless obliged to inform you as our valued customer according to Article 33 of the REACH Regulation in case our products contain more than 0.1 mass percent of substances of very high concern as listed in the SVHC Candidate List (ECHA).

According to information from our suppliers, the materials we use do not contain any substances from the SVHC candidate list (ECHA), or the maximum permissible limit values are complied with. It has been agreed with our suppliers that only REACH-compliant products will be delivered to us. If conformity is not maintained, our suppliers are obliged to inform us immediately. From today's point of view and against the background of the information provided by our suppliers, it is not to be expected that our products contain SVHC substances as defined by (EC) Regulation 1907/2006 in a mass concentration of more than 0.1% in the products supplied.

Please understand that we are not able to fill in special questionnaires due to the increasing number of enquiries.

However, we hope that this letter contains the information you requested and thank you for your confidence and the good cooperation.

If you have any further questions, please do not hesitate to contact us.

Remscheid, den 28.04.2021

GHM Messtechnik GmbH

Dr. Axel Lamprecht
